

Supporting a Healthier State!

The Oklahoma State Medical Association Foundation supports organizations creating significant change in the health of Oklahomans through smart responses to today's medical needs or systemic solutions that address the root causes of our state's health challenges.

This year alone, we've invested \$104,700 in community grants to Oklahoma organizations. Due to the generous support of donors like you, we can also continue our commitment to M.D. and D.O. physician mental health and well-being statewide through the Physician Wellness Program (PWP).
